

## Newsletter January 2012

### *Message from André*

Merry Christmas and Happy New Year to everyone and all the best to you and your family in 2012. Another year completed and another year that surpassed all my expectations. I want to thank you for your support and faith in JADE Engineers. I also want to thank my team who has been instrumental to JADE's recent success. We have accomplished many goals.

This past year I was given the opportunity to meet new exciting people, got to know existing contacts better and look forward to developing our relationships. I would like to leave you with one question for you to think about – one day I would like to hear your response.

“If we were having this discussion three years from today – and you were looking back over those three years – what has to have happened during that period, both personally and professionally, for you to feel happy with your progress?”

Talk soon,

---

### *JADE News*

- We are looking for a Mobile Crane Inspector to join our team. Please forward any referrals to [careers@jadeengineers.com](mailto:careers@jadeengineers.com).
- We are looking for a Structural Engineer/Designer and an Engineering Technologist to join our team. Please forward any referrals to [careers@jadeengineers.com](mailto:careers@jadeengineers.com).
- Our new website is being updated again in the New Year. Please check back at [www.jadeengineers.com](http://www.jadeengineers.com) for project and services updates.
- André attended the 2011 CanSIA conference in Toronto this past month. For more information about the Canadian Solar Industry, please visit [www.cansia.ca](http://www.cansia.ca).

---

### *New Location*

In September 2011 we moved to our new office location, 19 Baldwin Street in Tillsonburg. We now have ample space to create a productive work environment and we invite you to drop in. We are hosting the Tillsonburg Chamber of Commerce Business After Five on June 21, 2012 – you are all welcome to join us – out-of-towners included.

---

## ***Ordre des ingénieurs du Québec License***

André Brisson, ing. obtained his full license to practice engineering in the Province of Québec in November 2011. The whole team congratulates him on this accomplishment.

---

## ***New Team Members***

➤ **Phil St. John, E.I.T.**

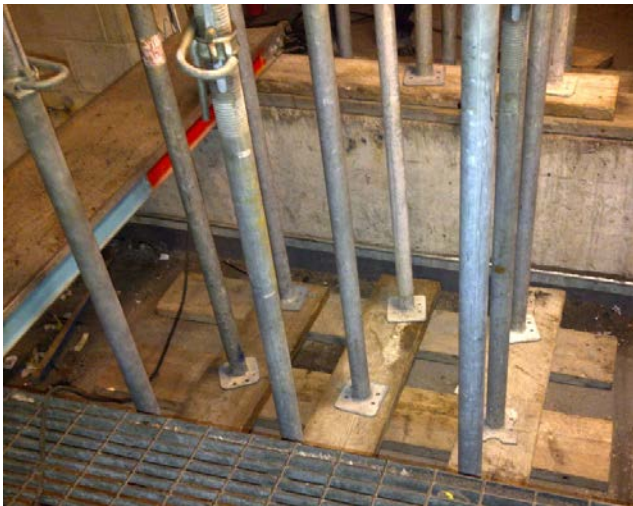

Phil joined our team in August 2011 as a structural designer. His experience and knowledge in the field of steel building design will be and has proven to be an asset to our team over the past few months.

➤ **Annette Larochelle**

Annette has recently joined JADE in January 2012 as an administrative assistant. She will replace Alayne during her maternity leave. We welcome her to the team.

---

## ***Feature Project - St. Joseph's Hospital, Hamilton, Crane Shoring***

JADE Engineers provided structural engineering for the shoring set up for the crane shoring of a 165 ton crane for Comstock at St. Joseph's Hospital in Hamilton. Our firm provided certified shoring drawings to support the outrigger of the crane that was positioned over an underground parking garage. On site construction reviews were required to confirm that the structural work was in general conformance with the requirements of the Ontario Building Code and the drawing as drawn by our draftsman Murray Pham. Due to interference issues found onsite, JADE Engineers had to react quickly with an alternative set-up and prepare as built drawings to suit site . The project was referred by and the shoring was installed by Thompson Miller Industrial.
