

**Expertise in: Structural, Fall Protection, Lifting Devices, Solar & Renewable Energies**

**Testing & Certification of: Aerial Devices, Cranes, EWPs, Ambulances, ERUs & Misc. Equipment**

JADE Engineers Inc. is a growing entrepreneurial engineering firm determined to be experts and leaders in niche areas. We have the specific training & experience in these areas so there is no need for you to have in-house expertise, or we can compliment your personnel. JADE Engineers manages professional best practices with practical, cost conscious designs & solutions.

## Why work with JADE?

- Our experience, quick reaction & flexible schedule help you maintain project timelines.
- We are current with the latest regulations, standards, codes and sit on 3 CSA technical committees.
- We provide trustworthy answers, solutions & concise documentation.
- Our fabrication experience reduces rework and delays.
- Collaboration with your teams & partners to increase efficiency.
- Health & safety of workers is protected by our independent, third party “seal of approval”.
- We’re well-rounded, “working” engineers who aren’t afraid to get dirty & get the job done.

## What others have to say

“JADE provided professional, responsive service to our every need and with the required follow up to close the loop. I would highly recommend them.” **Don Brown**, *Partner – Greenferd Construction Inc.*

“JADE has provided excellent work on a consistent basis. They know our industry well and always provide the best possible solutions for the specific issue at hand. They work well with the final customer to deliver a result that pleases everyone involved.” **Chuck Asmussen**, *General Manager – AIM Industrial Inc.*

“I have worked with JADE on multiple projects ranging in cost from a few thousand to well over a million. Their turnaround time proves they understand the time restraints a contractor can face.”

**Shawn Hinton**, *Project Manager – Roberts Onsite*

“JADE is flexible to the needs of our projects. Our unforeseen obstacles are dealt with promptly and with accuracy so delays are kept to a minimum. JADE understands projects from a contractor's point of view which has created a long lasting consulting relationship with us.”

**Scott Beattie**, *Site Supervisor – Greenferd Construction Inc.*

“JADE has proven to be highly skilled and knowledgeable in producing a superior product and has always made available to us a high level of support and has “gone the extra mile”. The use of modeling the structure in 3D as part of the design stage has reduced our installation time by at least 50%.”

**Keith Luckhardt**, *President and Owner – SunDial Corp.*
